About Precision Global Conferences

Precision Global Conferences (PGC) stands as a trusted leader in international scientific and industry event management, with a proven track record of delivering over thirty world-class conferences across premier innovation hubs in the United States, Europe, and Asia — including Singapore, Miami, San Francisco, Boston, Barcelona, Paris, and Thailand. We specialize in creating high-impact platforms that unite life science innovators, leading researchers, distinguished industry experts, and forward-thinking technology companies under one roof.

Welcome Message

Dear Speakers, Delegates, and Distinguished Guests,

It is my distinct privilege to welcome you to the Mental Health World Conference (MHWC) 2026 in Singapore. As a member of the Organizing Committee, I am thrilled to see global minds converge to address the evolving landscape of psychological well-being.

True progress in healthcare relies on breaking down silos. This year, our collective focus emphasizes the vital integration of behavioral health into primary care settings—ensuring that mental health support is accessible, early, and seamlessly woven into daily clinical practice.

This conference stands as a powerful platform for interactive collaboration, innovative diagnostic approaches, and shared medical education. I am confident that the insights generated here will empower practitioners worldwide to build more resilient healthcare systems.

Thank you for your dedication to shifting the paradigm of mental health care. I wish you all an inspiring, collaborative, and impactful conference experience.

Warm regards,

Dr. Salah Alabbasi
